Talking About The Weather

By Mark Eubank

A very intense and fast moving storm passed through the Torrance area last Friday night. All of the rain fell in an eight hour period, which was quite a short period for an inch of rain to fall. The rain was accompanied by wind which at times reached gusts of 20 miles per hour.

The month of February saw only one rain storm. There were no wind storms or extra low temperatures. However, there were a maximum of 90 recorded on February 12 which is unusual.

In the history of the Weather Bureau there has never been a March when it did not rain. So expect at least one storm next month.

The maximum temperature last week was 77. The low was 43. Maximum wind speed was 20 miles per hour. An inch of rain was also recorded.

If by any chance you think it rained hard last week you should have been in Cherrapunji, India, in August of 1841 when it rained 12 1/2 feet in five days.

Real Estate Course Told

The enrollment for classes in the instruction of the fundamentals of real estate law and preparation for various licenses was announced today by Lucile Valek.

The course is being conducted Monday and Thursday evenings at Miss Valek's, 10407 South Western.

In charge of instruction is Louis Mallette, associate counselor, with the Title Insurance and Trust Co.

Mallette has been active in the real estate profession with experience in the Title Industry as an abstractor, searcher and title examiner.

He is a graduate of Harvard, receiving his bachelor of science degree in 1952 and his bachelor of law degree in 1953.

Mallette also holds credentials as an adult educator of real estate and is well known as a public speaker.

Individual lectures will be given covering every phrase of finance, title land programs, and others which will insure the complete coverage of the many important aspects of the real estate profession.

NOTHING TO IT! Yes, it's so easy to place a Torrance Press Classified Ad that there's "nothing to it!" Just dial FA. 8-2345.

FORD IS AMERICA'S WINNINGEST CAR!

For 1957, Ford's off to a flying start on the NASCAR Short Track, Convertible and Grand National Race Circuit—with more points than all other cars combined!

And now—just in from Daytona—seven more Ford firsts!

- A 300-hp 1957 Ford V-8 out-accelerated all other low-priced cars in the standing mile competition.
- A 1957 Ford Sunliner outclassed all other low-priced cars in the 160-mile National Convertible Championship Race.
- A modified Ford Thunderbird, running in the Experimental Class, out-accelerated every other car in NASCAR history.
- A modified Thunderbird topped every American Sports Car, finished first in its class and placed second to Europe's fastest sports car at the National Amateur Sports Car Race.
- A standard production Thunderbird took first place in the flying mile—outperforming all sports cars made in America.
- A modified Thunderbird won the flying mile in the fastest time made by any car at Daytona this year.
- And a Ford Thunderbird topped the field in acceleration from a standing start in Modified Sports Car Class B.

It was Ford Thunderbird power that set a new stock car record at Indianapolis, too . . . and powered the '57 Ford to 458 world endurance records at Bonneville, Utah.
